

ALL FAMILIES HAVE
A STORY, WELCOME TO OURS

MISSION

Transforming and valuing wines and wine by-products in a sustainable and innovative way is our mission. We obey and respect the most demanding quality standards and guarantee compliance with the needs and expectations of our customers and consumers, worldwide, providing sustained growth and wealth creation.

VISION

Establish long lasting and fruitful relationships with suppliers and customers; positioning our products as a quality benchmark in the spirits, wine, food, animal feed and energy markets.

VALUES

Technology, accuracy, know-how, commitment, quality and environmental responsibility are, therefore, some of the key values that represent the critical success factors upstream and downstream of the entire process. Guarantee, for everyone, advantages such as quality, safety and convenience that result in value-added products.

YOUR PARTNER IN WINE BY-PRODUCTS MANAGEMENT

INTEGRATED LOGISTICS

Destilaria Levira offers its suppliers a complete and integrated management service of wine by-products, from transportation of wines, grape marc or lees, to the support in the entire process of document management. Destilaria Levira assumes itself as a useful and effective partner in simplifying procedures.

In the different stages of the process, the response time speed and effectiveness, as well as the care and quality control are a constant.

- Advice and recommendations to experienced producers and new producers;
- Integral support in the logistical organization of the entire by-product pick-up operation;
- Support for document management associated with this process;
- Attribution of added value and differentiation of the by-products.

HIGH VACUUM AND LOW TEMPERATURE

Innovative techniques in high vacuum and low temperature that guarantee a pure, natural and genuine oil, with a high level of nutrients and vitamins.

GOURMET DRYER

Low temperature mechanical drying with food grade stainless steel equipment for the production of high quality oils, with maximum preservation of nutrients and raw material properties.

ECO-REFINING

Better for the environment and better for your health. Continuous investment in infrastructure, equipment and improvement of production processes for less environmental impact.

TOTAL AUTOMATION

Maximum efficiency and greater profitability

OWN LABORATORY

Quality control throughout the production process.

TASTING PANEL

All batches are tasted and evaluated.
