MISSION

Transforming and valuing wines and wine by-products in a sustainable and innovative way is our mission. We obey and respect the most demanding quality standards and guarantee compliance with the needs and expectations of our customers and consumers, worldwide, providing sustained growth and wealth creation.

VISION

Establish long lasting and fruitful relationships with suppliers and customers; positioning our products as a quality benchmark in the spirits, wine, food, animal feed and energy markets.

VALUES

Technology, sustainability, accuracy, know-how, commitment, quality and environmental responsibility are, therefore, some of the key values that represent the critical success factors upstream and downstream of the entire process. Guarantee, for everyone, advantages such as quality, safety and convenience that result in value-added products.

1 CENTURY OF HISTORY

A 4 GENERATION FAMILY BUSINESS

since its origins in the 1920s, the Destilaria Levira's history has been largely associated with the art of distillation. The company has been innovating and investing in the enhancement and transformation of wines and wine by-products.

YOUR PARTNER IN WINE BY-PRODUCTS MANAGEMENT

INTEGRATED LOGISTICS

Destilaria Levira offers its suppliers a complete and integrated management service of wine by-products, from transportation of wines, grape marc or lees, to the support in the entire process of document management. Destilaria Levira assumes itself as a useful and effective partner in simplifying procedures.

In the different stages of the process, the response time speed and effectiveness, as well as the care and quality control are a constant.

- Advice and recommendations to experienced producers and new producers;
- Integral support in the logistical organization of the entire by-product pick-up operation;
- Support for document management associated with this process;
- Attribution of added value and differentiation of the by-products.

DISTILLERY

THE ART OF DISTILLATION

TRADITION AND FUTURE HAND IN HAND

The combining of traditional techniques, the usage of copper distillation equipment that ensures the excellence of the aromas, the authenticity of the tasting process and the preservation of its physico-chemical characteristics, with technological innovations allow productivity gains, guaranteeing the best quality.

Allied to the family wisdom, carried out for many decades, there is a constant commitment to research and development. To this end, we unequivocally invest in the best technology, in order to optimize processes, innovate and guarantee the best quality. All equipment in our facilities are carefully chosen for exceptional results.

THE ART OF DISTILLATION IS THE BEGINNING OF OUR STORY, IT'S OUR ORIGIN

The selection of raw materials, grape marc and wine, constitutes the highest quality and reliability requirement for our products, whose origin is exclusively from the best wine farms in Portugal.

This rigor determines the extraordinary quality and flavor of the products, justified by the careful selection and conservation of the raw materials and by the constant support to our suppliers in all the necessary logistical management.

GRAPE MARC SPIRIT

The know-how and art of grape marc distillation has been present in the history of Destilaria Levira since the 1920s, counting with the 4 generations of history.

Destilaria Levira is the Iberian leader in the grape marc spirit distillation where the main differentiating factor being respect for the raw material. The grape marc production process preserves the original flavors, resulting in an authentic product with extraordinary flavors and aromas. Through copper stills, we combine the traditional processes with an innovation which guarantees high productivity and high quality genuine products.

BRANDS

OUR IDENTITY

ADAMVS

SVBLIME SPIRIT

❖ FROM BAIRRADA WITH LOVE

Adamus is the combination of the best of our region, the Bairrada region in Portugal, reflected in the use of the typical grape variety called Baga, the best of our country, reflected in the use of cork stoppers in a unique and innovative style and the best of experience and knowledge of 4 generations of Destilaria Levira present in the superior quality of distillation of each Adamus brand product.

A hand is shown holding an open, dark-colored box of Adamus perfume. Inside the box, several bottles of different sizes and shapes are visible, some with cork stoppers. The background is a blurred, warm-toned interior.

❖ BORN FROM THE PASSION

Adamus was born from the passion for distillation and the strong innovative spirit of Destilaria Levira. From the beginning, our objective was to create a differentiating product and this is reflected both in its unique and fascinating image and in the superior quality of what is inside each bottle. The passion for distilling runs in our blood and has a history spanning 4 generations.

❖ FOR UNIQUE MOMENTS

Each Adamus Spirit is 100% hand distilled in traditional copper pots with direct steam. From the beginning, our focus has been to provide a sublime experience throughout the entire process. From the first contact with the product (the touch), to the moment of tasting and appreciating our gin (flavor)

ESPÍRITO SVBLIME

❖ MEET ORGANIC DRY GIN

Adamus Organic Dry Gin is the result of multiple distillations, laboratory tests and remarkable research into the 86 botanicals subjected to testing.

From these we selected the 18 best that define the blend and give ADAMUS Gin its essence.

With an incredible and elegant bottle, stunning flavor and strong soul, we believe we have created one of the best Gin's in the world.

❖ MEET ORGANIC GRAPE MARC SPIRIT DOC BAIRRADA

Several slow and detailed distillations were carried out in copper pots by direct steam, and the best distillates were selected, both gustatively and analytically in the laboratory. With a fresh and vinous aroma, it presents notes of fresh grape pomace, grape nuances, combined with a good floral component (some orange blossom) and grape seeds.

Traditional production is equated to finished Italian Grapas. It is a noble drink that will surprise the most demanding drinkers.

❖ MEET 20 YEARS OLD WINE SPIRT

With a personality made up of distinct color and aromatic complexity, it gives evolution and smoothness, where aromatic notes of toffee and candied fruits stand out. Combined with aromatic notes of cigar boxes, balsamic and toasted, with a delicious greasiness to the tongue, with an elegant body and persistent notes that invade the palate.

It is presented under the Adamus banner, genuinely pure, genuinely old, genuinely sublime!

Signature Edition

Exclusive and limited edition
of the world's first gin aged in baga
barrels.

Organic, vegan, well structured and
balanced, with balsamic
characteristics that give it even
greater depth and oral persistence.

BORLIDO

Since 1930, Borlido has traditionally produced high-quality sparkling wines, carefully fermented and aged in underground cellars.

From a careful selection of the Baga grape, the result was a fine-bubble sparkling wine, highlighted by good notes of ripe white-fleshed fruit, fruit jelly and an interesting bakery and biscuit component, which gives it a long and persistent taste. Extreme in creaminess and unctuousness, it is balanced and has good freshness, which give it complexity.

REALGINJA d'ÓBIDOS

❧ NOBLE FROM ITS ORIGIN

It didn't take long for the fame of Real Ginja Liqueur to reach beyond the walls of the royal houses, leading the nobility and upper bourgeoisie to make it. It is to the bourgeoisie that the greater dissemination of sour cherry liqueur is due to its production in its distilleries and sale in its pubs and taverns.

Lisbon, as well as Óbidos, among other places, soon fell into the liqueur temptations of the "cult" of sour cherry liqueur. There was no bar or tavern that didn't show her off, no get-together that didn't toast her. It was the drink of the nobility, the bourgeoisie, the poets, the fado singers and the marialvas.

❖ THE ROYAL LIQUOR

The liqueur is produced after the sour cherry fruit remains in hydroalcoholic macerations for a long time. Its production is carried out in batches, following the rigor of "SELF-CONTROL": an effective method in all procedures, both on a human and technical level, always with great rigor.

TO INSPIRE AND BE INSPIRATION

We are inspired by the past and try to change the future. We inspire each other and serve as inspiration. This is the story of those who live, this is the reality worth living. This is the belief of Real Ginja de Óbidos: Being, Living, Toasting and Inspiring.

“Being real is the only noble cause in the world”

Fernando Pessoa

AMARITIS

LIQUORS WITH WITH LOVE

The passion and dedication we put into creating each liqueur is something unique and special. After all, it is this passion and dedication that makes each flavor different and unforgettable.

At Amaritis, we understand that the quality of a product is directly related to our dedication to the art of creating them. That's why we go to great lengths to create authentic and exclusive liqueurs, which have an unmistakable flavor.

This dedication ranges from the careful choice of ingredients to the meticulous preparation of each recipe.

Each flavor is created from a story, an inspiration, a feeling that is transformed into a delicious drink that delights everyone who tries it.

GRADUVA

COOKED AND SEASONINGS HEALTHY

With the growing concern for a healthier lifestyle and better nutrition, Graduva was born. Oils of 100% natural vegetable origin, obtained from selected materials, which undergo several processes to guarantee their quality

100% PURE

AVOCADO

Graduva Avocado Oil is rich in Omega 9 and also contains Omega 3 and 6, helping to regulate normal cholesterol levels. Its smoke point is 270°C, making it the most resistant to high temperatures.

GRAPESEED

Graduva GrapeSeed Oil has a neutral aroma and mild flavor, ideal for enhancing the true aroma and flavor of food. Rich in Omega 6, it helps regulate normal cholesterol levels.

With the growing concern for a healthier lifestyle and better nutrition, Graduva GrapeSeed Oil was born.

An oil of vegetable origin, obtained from selected grape seeds, which undergo rigorous selection, dehydration and extraction to guarantee its quality

Levigal[®]

Levical® is a portuguese registered brand specializing in disinfection solutions.

Our mission is to ensure the protection of healthcare professionals and families by developing high quality and effective products.

Leviral offers you solutions for hand disinfection and hydration with environmentally friendly packaging and practical formats for transport and daily use.

This range, created with advanced formulas, also features an alcohol-based surface disinfectant and sanitary ethyl alcohol with fungicidal action.
